

How does it work?

- Employers identify the jobs, &
- We will do the rest.
- Working with community agencies, we

o **Recruit:**
manufacturing career fairs, tours, assessment, and presentations.

o **Train:**
Soft and Technical skills _ GED, Manufacturing Quality Operating Systems (MQOS), Quality Control, customer satisfaction, communication, Lean, Six Sigma, 8D, APQP, 1st line supervisor, and Customized Job specific training, and much more.

o **Mentor:**
Life coach and job coach up to 90 days on the job

o **Skilled quality workers for hire**

OUR GOAL

is to make both the worker and employer lives Better with Continuous Improvement and Growth!

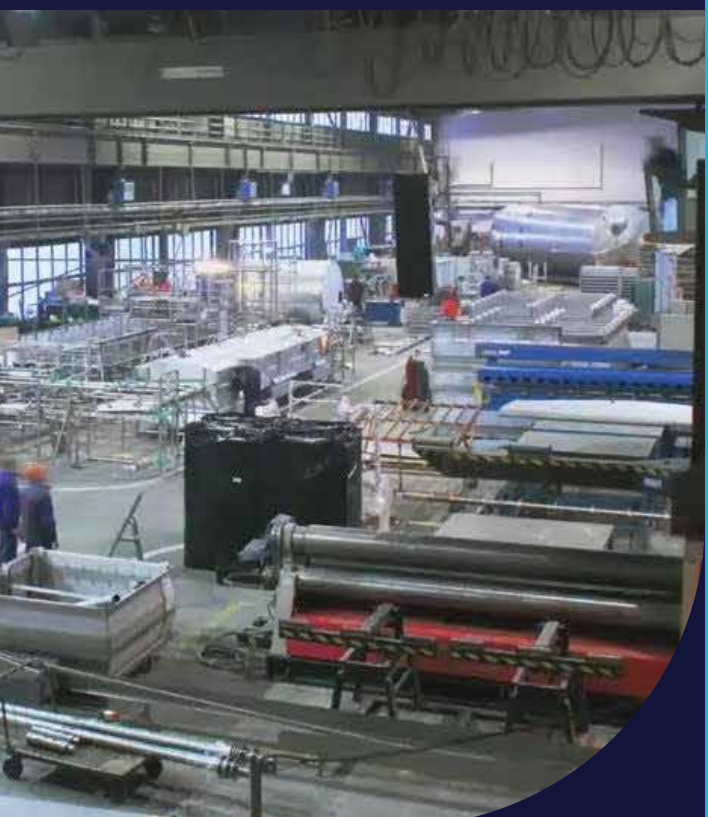

info@gshasolutions.org

These are trying times for the WORKER and EMPLOYER

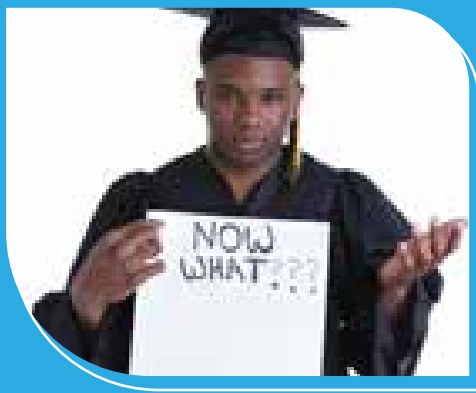

o **Manufacturers are having challenges finding hourly workers**

- o According to Michigan RSQE forecast, nearly 7000 jobs may be permanently eliminated post Covid.
- o In addition, Deloitte study found that over the next decade there is projected to be 2 million manufacturing jobs shortage due to attrition.

- Workers are struggling to find jobs they have the right skills for hire.
- Unskilled and low skill workers seeking to upskill for careers with higher earning potential

GSHA Quality Services has a solution! We connect workers with employers through our Employer Led Collaborative (ELC)
